2nd edition

December 2022

3rd Transnational Project Meeting

Discussions and project activities

At the beginning of December, the project partners met face-to-face in Volos, Greece. First, they discussed the progress of Intellectual output 1 (IO1) and Intellectual output 2 (IO2) and concluded the corresponding tasks.

IO1: So far, the partners have prepared 10 different modules, which will be available in the **GreenTeam online course** aimed at developing the learners' knowledge, skills, and attitudes in the fields of climate change and sustainable development. The course will be available on the **GreenTeam e-learning platform** in 6 languages: English, Greek, Italian, Polish, Slovenian, and Spanish.

IO2: The main target group of the project are VET schools, so the partners have also prepared **10 different workshops**, which correspond to the 10 modules of the online course. Each workshop is divided into 2 lesson plans for the teachers or trainers – one to cover the theoretical aspect and one to offer a more practical approach. The workshops and lesson plans will also be available in 6 languages.

The most important and extensive topic of the transnational project meeting was **Intellectual output 3 (IO3)** and related activities, which are to be carried out as part of the following three tasks:

Task IO3 A1:

Setting the schedule of workshops

Task IO3 A2:

Testing & implementation of workshops and platforms

Task IO3 A3:

Gathering feedback

As part of IO3, trainers and co-trainers from Greece, Italy, Poland, Slovenia, and Spain will carry out all 10 workshops in their national languages. Altogether, the workshops are expected to be attended by 400 students at this stage!

Workshop participants will also be invited to register on the GreenTeam platform and complete the online course, which will enable them to participate in the exciting **FINAL COMPETITION**.
